

What our clients say

"Deb and John were very helpful through the whole process. We especially appreciated being able to phone John for advice on installation during the project."

Kelly Buchanan
Hodgsonvale QUEENSLAND

"John was extremely helpful. The product was delivered in good condition and the rock was laid in the bar area of a lodge. Everyone was more than happy with Hoobler Stone."

Mel Kroenert Builder
Jindabyne NEW SOUTH WALES

"My clients are very happy and have had many comments on the job. This product is easy to install and a very good finish. Looks like the real thing."

David Sawyer Builder
Geelong VICTORIA

"Thank you for all your help, we really appreciate it. The house looks terrific. Please pass on our thanks to the stone layers – they did a fantastic job. We are very happy to recommend Hoobler Stone to anyone enquiring about building a stone house."

Jon & Nadine Watson
Mt Martha VICTORIA

"I happened on you by chance, through the MBAV display centre. I saw several stone products – yours was a good unique look, fairly priced, and locally made. Your service has been very good in an age when service is a dirty word. You and your staff have gone above and beyond what I am used to. Pleasure doing business with you."

The Stone Maker

"Hoobler Stone is the original and most experienced manufacturer of cutting-edge stone veneer in Australia and is consistently chosen for its "natural" look by architects, designers, developers, builders, landscapers and home owners.

Made of strong, light-weight concrete, Hoobler Stone has proven its quality, durability and longevity since the early 1970's. Now that's confidence!"

Stunning Results

hoobler stone

What is Hoobler Stone?

Hoobler Stone is a reproduction of natural stone cast in moulds formed from pieces collected worldwide. Hundreds of different shapes are produced with no two stones exactly the same. Each stone is cast and fixed individually, creating the appearance of sold stone construction due to its three-dimensional qualities and textured surface.

Many Natural Stone Types

Hoobler Stone is manufactured in a range of different stone textures and colours including:

- Bluestone pitchers
- Sandstone pitchers
- Random stone
- Petrified wood
- Foundation stones
- Granite
- Bush stone
- Spalls
- Lava stone
- Capping stones

Bluestone Pitchers

Sandstone Pitchers (Mix)

Burnt Umber Random & Spalls

Colonial Brown Random Mix

Tassie Bush Stone

Foundation Stones

Buller Stone

Mt Hotham Stone

High Country Granite

Paving Stones

Numerous Possibilities

Hoobler Stone is committed to high quality, cost effective products, timely delivery, accurate information and advice, and outstanding customer service before, during and after our products are used.

With classic and contemporary stones to suit a range of building designs, Hoobler Stone is a stunning cladding alternative for domestic and commercial buildings, landscaping projects, external and internal feature walls, alfresco dining areas, fences, pillars and retaining walls, fireplaces and chimneys.

Special walkway stones and cobble stones are cast with a flatter surface for paving applications. These are ideally suited for steps, pathways, swimming pool surrounds, patios, driveways and fireplace hearths.

Other products include capping stones and quionings (made to order), adhesive and sealer.

The Hoobler Stone Advantage

- Stones are flat-backed, light-weight and easy to apply
- No special ties or footings are required
- More cost effective to purchase and apply than natural stone
- Striking range of colours and textures
- Colour-fast, weather-proof and maintenance free
- Stone can be matched at a later time
- Can be colour matched to suit special requirements
- Proudly Australian made and owned since the early 1970's
